NUTRITION MATTERS

Since the mid-1900's Texas has been the leader in the conservation and herd expansion of both native and non-native exotics. It is the spirit of Texas that sees the need to preserve these beautiful animals that are becoming fewer in number in their native lands. Through the efforts of private Texas landowners many of these species are on the rise in numbers.

At Lyssy & Eckel it is our mission to work alongside these landowners to provide the supplemental nutrition necessary for these exotics to be healthy and thrive. Our "On-Target" browse testing program gives us a unique understanding of the nutritional needs of these animals. Since 2002, we have sampled and tested thousands of native browse plants from all over Texas. Based on the results of these browse tests we have developed supplemental exotic feeds that provide the nutrition needed by all species of exotics.

The "On-Target" program has proven that free-ranging browsers are seriously deficient in phosphorus, magnesium, copper, zinc, manganese, selenium, vitamin A, vitamin D and vitamin E. All of our supplemental exotic feeds take these deficiencies into account and are formulated to provide exotics the nutrition necessary to maintain adequate body condition and a strong immune system.

At Lyssy & Eckel, we are serious about manufacturing only the best exotic feeds. Your genetic improvements never stop, and we promise you that we will never stop looking for ways to improve the performance of our feeds.

NUTRITION MATTERS

NUTRITION MATTERS

DEER & EXOTIC 20:

- Enhances blood flow and blood vessel development
- Added B-vitamins to stimulate horn growth
- Fuels the production of the microbial proteins necessary for antler growth
- Improves the digestibility of native browse
- Sustains a healthy immune system
- Time sequenced proteins and carbohydrates
- Balanced degradable: bypass protein ratio
- No "Least-Cost" formulating
- Guaranteed levels of zinc, manganese, and copper
- Demonstrated to improve results year, after year, after year

GUARANTEED ANALYSIS

Crude Protein, not less than	20.00%
Crude Fat, not less than	3.00%
Crude Fiber, not more than.....	10.00%
Calcium, not less than	1.40%
Calcium, not more than	1.70%
Phosphorus, not less than	0.80%
Salt, not less than	0.50%
Salt, not more than	0.90%
Potassium, not less than	0.80%
Zinc, not less than	300PPM
Manganese, not less than.....	250PPM
Copper, not less than	80PPM
Selenium, not less than	0.70PPM
Vitamin A, not less than.....	20,000I.U./lb.
Vitamin E, not less than.....	50I.U./lb.

EXOTIC BREEDER 16 2X:

- Enhances blood flow and blood vessel development
- A complete feed for use during times of limited browse
- Added B-vitamins to stimulate horn growth
- Fuels the production of the microbial proteins necessary for antler growth
- Improves the digestibility of native browse
- Sustains a healthy immune system
- Time sequenced proteins and carbohydrates
- Balanced degradable:bypass protein ratio
- No "Least-Cost" formulating
- Guaranteed levels of zinc, manganese, and copper
- Fortified with Corda Salus, our proprietary blend of essential oils, yeast culture, probiotics, yucca extract and prebiotic fibers, to boost and sustain a healthy immune system.

GUARANTEED ANALYSIS

Crude Protein, not less than	16.00%
Crude Fat, not less than.....	3.50%
Crude Fiber, not more than.....	15.00%
Calcium, not less than	1.60%
Calcium, not more than	1.90%
Phosphorus, not less than	0.80%
Salt, not less than	0.40%
Salt, not more than	0.80%
Potassium, not less than	1.00%
Zinc, not less than	200PPM
Manganese, not less than	140PPM
Copper, not less than	30PPM
Vitamin A, not less than.....	12,000I.U./lb.
Vitamin E, not less than.....	20I.U./lb.

EXOTIC GRAZER 12 2X:

- A complete feed for exotic grazers on limited native pasture.
- Added B-vitamins to stimulate horn growth and energy utilization.
- Formulated to maintain a healthy rumen.
- No least-cost formulating.
- Guaranteed levels of zinc, manganese and copper.
- Fortified with Corda Salus, our proprietary blend of essential oils, yeast culture, probiotics, yucca extract and prebiotic fibers, to boost and sustain a healthy immune system.

GUARANTEED ANALYSIS

Crude Protein, not less than	12.00%
Crude Fat, not less than	4.00%
Crude Fiber, not more than	30.00%
Calcium, not less than	0.80%
Calcium, not more than	1.20%
Phosphorus, not less than	0.40%
Salt, not less than	0.10%
Salt, not more than	0.30%
Potassium, not less than	1.20%
Zinc, not less than	125PPM
Manganese, not less than	100PPM
Copper, not less than	25 PPM
Vitamin A, not less than.....	12,000I.U./lb.
Vitamin E, not less than	500 I.U./lb.

ZOO & WILDLIFE WORMER 17 2X:

- Safeguard 0.02% is a wormer that is approved for wildlife and zoo ruminants.
- Recommended for the removal and control of kidney worms(Stephanurus edentatus), round worms(Ascaris suum), nodular worms(Oesophagostomum edentatum), small stomach worm(Trichostrongylus spp.), thread necked intestinal worm(Nematodirus spp.) barberpole worm(Haemonchus spp.) and whipworm(Trichuris spp.).
- Safeguard goes straight to the gut, delivering a dose right where the worms live and breed.
- A strategic worming program recommends worming wildlife in the spring and fall.
- Parasite infection reduces forage intake that is critical to wildlife health and well being.
- Internal parasites greatly depress absorption of a variety of nutrients.
- Internal parasites increase susceptibility to infection and weaken the animal's immune system.
- Safeguard is safe and effective.

GUARANTEED ANALYSIS

Crude Protein, not less than	17.00%
Crude Fat, not less than	4.00%
Crude Fiber, not more than	17.00%
Calcium, not less than	1.80%
Calcium, not more than.....	2.10%
Phosphorus, not less than	1.10%
Salt, not less than	0.60%
Salt, not more than	0.90%
Zinc, not less than	550PPM
Manganese, not less than	350PPM
Copper, not less than	110PPM
Vitamin A, not less than	20,000I.U./lb.
Vitamin E, not less than	50I.U./lb.

MAXIMIZING YOUR GENETICS TO IMPROVE YOUR RESULTS YEAR, AFTER YEAR, AFTER YEAR.
